

Conferencing at Mythe Barn

Event Brief

Arqiva held their Health and Safety Conference at Mythe Barn for 120 delegates. The client wanted a relaxed and fun event at a flexible venue with scope for a variety of different work shops and delicious food.

Members of Arqiva set up one day prior to the event and guests arrived from 8.30am the following day. Guests enjoyed a relaxed but full day of work shops and activities all centred around healthy living.

The Grain store was used as the main meeting room set in a theatre style incorporating the inclusive projector and screen. The Oak Barn, Hayloft and Courtyard were used as three separate breakout areas. Stands of all varieties filled the Cart Barn; including a hand grip strength test and a buzz wire for testing hand steadiness. They even had a giant game of Operation in action!

A delicious fruit platter was served for breakfast on arrival along side a wholesome portion of porridge. For lunch, jacket potatoes were served with a choice of fillings in a buffet style.
